

# SAFE SHALLOW DRAFTING

FROM NATURAL WATER SOURCES.

## BEARSPAW SEPARATORS

Our Patented technology is superior to strainers', for Shallow Natural Source Drafting. We eliminate RISK of Sand/Gravel Damage.

WETLANDS | CREEKS | LAKES | RIVERS | OCEANS

Less than a Foot / 30 cm of Water

Safe Pumping from All Sources

# DRAFTING CAN BE HAZARDOUS TO YOUR PUMP... EXCEPT WHEN USING A *SEPARATOR*!

**STRAINER**

**SEPARATOR**

**AVOID PUMP DAMAGE - DAY OR NIGHT - WITH SEPARATORS**

## **WILDFIRE**

**Shallow Drafting in Less than  
a Foot / 30 cm of Creek Water**

# EASY & WORRY-FREE

*Shallow Drafting from Natural Sources*

Less than a Foot / 30 cm of Water

## BENEFITS

Eliminates RISK of Sand/Gravel Damage

No Flotation or Suspension Required

No "Babysitting" Necessary

## SEPARATORS

Sizes & Flow Rates\*

Separators Model #	Size	LPM	Imp. GPM	US GPM
2.3 HPC	2"	427	94	113
25.3	2.5"	1200	264	317
	3" (camlock)	1345	296	355
4.3	4"	4546	1000	1200
6.3	5"	4637	1020	1225
6.3	6"	5867	1291	1550

Elite Pump Protection

\* Based on the results observed during various tests with numerous rural fire departments in western Canada. Actual results may vary.

# ? DECISION QUESTIONS

## THIS TECHNOLOGY IS IMPRESSIVE BUT WHY DO I NEED IT?

- **Eliminates RISK** of pump damage by sand and gravel - which for truck pumps could be \$40,000 +/- in repairs plus Downtime.
- **Flexibility of Choice** for Drafting Locations during Emergencies – including Shallow Sources / Weeds & Debris – in Less than a Foot / 30 cm of Water.
- **Efficient** - Just Place & Pump - No floatation, suspension or “babysitting”. Usually just one length of suction hose.

## HOW DO I BUY SEPARATORS?

We have retailers in Canada coast to coast.

See our website or email us for information.

Note: Separators cost significantly more to build than strainers
