CONNECTOR OPTIONS: Alternative fittings can be supplied on request e.g. 2.5" QCT, 2.5" AMA, Camlock, NPT, Storz, 5", and more, upon request. Please contact us at info@protectapump.com for further inquiries.

- 1 - V-Guard** is an integral (easily) removable attachment that enables extended drafting time in weeds and debris laden water sources.
- 2 - Bio-Belt** is an added pump - safety feature and made of stainless steel.
- 3 - Ball Swivel Connector** is a unique attachment that offers a flexible directional connection for the suction hose.
- 4 - Jet-Syphon (5" & 6" only)** for syphoning tank-to-tank, and draft assist with height or longer distances.
