

WORLD'S ONLY

Water / Debris Separators

For the first time in history
**Rural & Wildland drafting protocols
do not apply!**

How is that possible?... without damage to the fire pump!

Our disruptive separation technology eliminates fire pump damage from sand, pebbles, weeds and debris when drafting from swamps, creeks, ponds, rivers, etc.

Environmental bonus:

No impact to aquatic life and their habitat!

This is just another strainer, right?... No!

Strainers allow pebbles & sand to pump

Separators reject everything but water!

Above are two entirely different technologies at work

When drafting from **shallow*** natural sources the patented BearsPaw Separator is the only safe option.

* **Shallow:** means less than 12" / 30 cm water depth

Separators technology allows firefighters to ignore traditional drafting protocols to get the job done safely and more efficiently!

Drafting technology has evolved incredibly

Evolution of technologies

Landline

Strainer

Smartphone

Separator

Smartphones perform where landlines can't.
Separators perform where strainers can't.

Separators provide you freedom to draft where you should...
not where you must.

Product information

Note: The **most important** bit of information for ordering is:

1) Suction hose size & 2) Connector size and thread type

We can help you with the rest of the decisions.

Separators are offered in a variety of sizes and hose connectors

From 2" (50 mm) all the way up to 6" (150 mm) suction hoses we've got your back.

Features include:

- Built-in foot-valve available for 2" / 50 mm & some 2.5" / 65 mm
- Ball swivel connector standard on 2" / 50 mm & 2.5" / 65 mm sizes
- Jet-Siphon standard on 5" / 125 mm & 6" / 150 mm
- Vegetation Guard standard on all BearsPaw Separators
- Warranty covers deployment in salt water
- Built Tough. Built in Canada!

Attn: Rural Fire Chiefs

For the first time in history, you have a choice that is contrary to normal protocols!

Draft any- where / depth you choose with this disruptive

Separator technology aka:

"The Ultimate Portable Dry Hydrant" | Safe – Efficient – Reliable – Life Saving
